

Van Dolder's Blog Post

Owen Sound Showroom Corner Office

We understand making major changes to your home's exterior can seem like a daunting task, but we've come up with a solution to make the process easy, fun and informative. Seeing is believing ... and, we invite you to come see the quality and craftsmanship for yourself at the Van Dolder's Custom Exteriors village-style showroom.

The showroom is set up with tiny homes installed with preferred products you can get up close to see them in action. Get inspired and acquainted with up-to-date styles and materials as you visit each model. Remove the guess-work and be confident knowing how each product functions and looks ... as they would for your very own home improvement project.

The showroom offers a variety of materials and products to spark your imagination, such as:

MasterGrain Contemporary Entry Door

- Cherry Stainless Inlay – Fiberglass composite insulated with high density, CFC-free, polyurethane foam for efficiency and noise abatement, and to diminish energy loss and sound leakage.
- Clean, clear lines. Desirable, unfussy modern doors and no wood grain.
- A great selection of engraved or stainless inlay available.

Be On Stone Siding

- Adds the strength and elegance of stone work to your home. This affordable, natural hand-hewn stone installs easily on most walls and is a powerful compliment to any home. Available in a variety of styles and colours.

Gentek Distinction Siding

- The look of real wood with a great selection of nuanced and matte colours available.
- Coated with rust resistant paint that provides long term durability.
- Maintenance free, 26-gauge high strength steel with a 40 year limited warranty.
- Can be installed horizontally or vertically.

MasterGrain Stacking Patio Door

- These patio doors offer a larger opening than a classic patio door - up to 23 feet wide and 8 feet tall.
- Can stack up to 3 panels on each side, without taking up additional wall space.
- Customizable colours let you match it to your décor.

Aluminum Decking

- Disperses heat and has a grooved wood texture so it's comfortable to walk on all year. Corrosion-free, will not crack or warp and is easy to maintain. Requires no staining, painting or finishing to keep its beauty and durability.
- Decking can be installed over any base or existing deck.
- Water-resistant and ideal for second level decks, as it protects lower levels from the elements.
- Available in a selection of wood texture and colours.

Railing

- Van Dolder's complete aluminum railings don't need to be stained, treated, painted or finished to maintain their beauty and durability.

- Non-corrosive, and will not warp, crack, or fade.
- All glass systems with no aluminum posts are also available.

Tiltco Architectural Window

- Structural glass curtain wall façade systems offer a great creative freedom, providing ample natural light in.
- Emphasis on minimal design and aesthetics.
- Limitless combinations of vertical and inclined planes.
- Wide range of architectural paint colours or custom colours available.

Gentek Sagiper Soffit

- Highly durable vinyl that is resistant to humidity and temperature variations, even in the most adverse weather conditions
- Maintenance Free with a 50 year (15 year non-prorated) warranty
- Impervious to water/molds and impenetrable to insects
- Available in a variety of wood tones and metallic finishes available
